

Finishing School Supply List – Darlene Zimmerman

Would you like to add some pizzazz to your quilts by adding a fancy border, but are afraid to try? Then this class is for you! Learn how to make and bind all types of edge finishes on quilts. In class you will make bound samples of scalloped, notched and shaped edges such as hexagon edges (as in Grandmother's Flower Garden quilt) and ice cream cone borders. You will also learn how to make (and finish) prairie point edgings, and learn how to add a flange. The class will include a professional's tips on perfect bindings and no-lump joints for a fabulous finishing touch on all your quilts!
